RG104 E-1 Box 149

U. S. Treasury Department.

There is no sheet or book published, giving the market value of Coins.

There are two varieties of the 1853 quarter dollar. One rare, and the other very common.

The rare variety, is plain, and have sold from 3 to 12 dollars.

The common variety is known by an arrow head on each side of the date, and lays on the reverse. It is only worth its face.
